

WILLIAM G. BRADLEY,
MAYOR OF ROCHESTER,
SEVENTH YEAR.

SIXTH
ANNUAL REPORT
OF
MUNICIPAL GOVERNMENT
OF THE
CITY OF ROCHESTER, N. H.
FOR THE
FINANCIAL YEAR 1897.
TOGETHER WITH THE
SCHOOL REPORT, MAYOR'S INAUGURAL,
ETC.

PRESS OF THE
COURIER PUBLISHING COMPANY,
ROCHESTER, N. H.

Mayor Felker's Valedictory.

Gentlemen of the City Council:

In what few words I may say to you at the close of our official connection in management of the affairs of our beloved city, I do not deem it necessary to recount all the many improvements we have made or to go into the details of municipal work accomplished. The record is made. Whatever of good we have accomplished will in time be appreciated and whatever mistakes we have made, and we should not be human if we did not make them, let us hope that a generous community will overlook.

City government in our day comes more closely home to the average citizen, means more to him in his health, convenience, education and pleasure, than any form of government has ever done in the past. Local government in a rural district does not undertake to do very much for her citizens, while the city government of our day has to deal with a great variety of duties which make for the advance and comforts of its inhabitants,—water, proper drainage, fire protection, macadamized streets, sidewalks, electric railroads, parks.

City governments cannot rise higher than their source. Popular enlightenment as to what constitutes a good city government must at least accompany any improvement. The people themselves must be educated to see and demand that which is best for their city. Government is not an end but a means. It should be a business wherein the money collected from the people is spent economically for their advantage. The sooner we recognize the fact that some men are especially adapted to do certain kinds of work, to manage men, build roads, to preserve

order and discipline in schools, while others equally as well qualified in many other respects have no especial faculty for such work, the better off we shall be. What a man may think upon the tariff or money question in no way qualifies him to hold an executive office in a municipal corporation. What connection can there be between the tariff and building roads?

There is a low state of public morals, certainly a different state of morals, when dealing with the city or a town than when dealing with individuals. Men who are honest when dealing with their fellow men seem determined to cheat their city or town. How many times I have heard a dealer say the price is so much if it is for yourself and so much, naming a higher price, if it is for the city.

It is within the power of half a dozen to say that we shall have the best municipal government that can be devised. Do they do it? There are sins of omission as well as commission. We all are bound to use what influence we possess for the best good of our city.

It is said no one should be elected unless he is a tax payer. I find that the poor man is as likely to stand up and do the honorable thing as the rich man; even more so, for his manhood is at stake, while the rich man is all the time asking, How will this affect me or my property, or if I do this won't someone do something injurious to me? Wealth will do a great deal in a way but it never made a man with a back-bone who did this or that because it was right. If he does it he does it in spite of his wealth.

I believe that Rochester has a great future before it and that while all things should be done as economically as possible, the future needs of the city should be looked after. I would create a debt to do those things which the future Rochester cannot get along without and which certainly can be done cheaper at the present time. When our new union station shall be built and the railroad tracks shall all come into the city proper side by side and not separate until they get out into the country, when new brick blocks shall surround Central Square, when its many

and varied industries shall have increased three-fold and Rochester shall have a population of 25,000, then will we wake up and find how much we ought to have done at the present time in anticipation of such a growth.

When two years ago I assumed the duties of this office, my first utterance was that "It seems to me much more fitting that a retiring mayor, who from his work in the office and his association connected therewith, must know more of the needs of a growing city like ours, should advise us, the newly elected members of our city government, than one about to enter upon those duties." Certainly two years' experience must count for something; but few of us pay much attention to the past; it is what we are going to do in the future; it is the rising, not the setting sun we look to. Still there are a few things to which I wish to call the attention of the council at this time.

It is my firm conviction that members of the council should, as well as the mayor, be elected every year and that the mayor should have the appointment of all officers. Not but what the members of the council know as much about who ought to be chosen as the mayor. If the responsibility of who should fill this or that position was placed upon any member of this council alone, he would be more cautious and try to give us the best man for the place; and certainly the mayor, who is held responsible by the people and whom they have placed confidence in as shown by his election, is entitled to have something to say who shall work with him. My successor will certainly have the advantage of me. If the officer does not do his duty and see that the ordinances for closing at ten or on Sundays is enforced, or if the men in the different departments are not doing their work as they ought to do, he can suspend them and call upon the council to investigate without having that old chestnut sprung upon him—politics. He certainly can be doing it for the good of the public service and the people will stand back of him.

All committees of the city council should have regular meetings and a record should be kept of every vote and then if the

mayor is a member of the highway committee he can be put on record.

The purchasing department, while it has not been systematized as it should be, has saved the city considerable money. Only recently the city of Chicago has established a purchasing agency where all supplies for the various departments are bought of the lowest bidder. The purchasing agency of the city of Lowell has been in existence ten months and during that time the city has saved, at a conservative estimate, \$32,000 net. There have been on an average four bids to a requisition. The records and bill files of the office are open to public inspection and any one can see what is the amount of material bought and the purchase price. I would recommend that it be extended to every department and cover all purchasing of supplies. All work covering a cost above \$50 should be let out by contract. Proper specifications should be drawn up and an inspector put upon the work. No matter how well any head of department may do, he cannot do it nearly as cheap as it can be let out by contract.

Charles Sumner said in one of his inimitable addresses, that under God, the road-master and the school master are the two chief agents of human progress. We have sufficient school room with all modern improvements at East Rochester and shall have the like accommodations at Gonic when the new schoolhouse is completed. What is needed above everything else is a new eight-room schoolhouse on Main street. A large eight-room schoolhouse can be handled cheaper than two four-roomed buildings. The cost in fuel and repairs will be very much less and then only one janitor is needed to look after the building. Our school board have hung out this banner, "Our schools exist for the benefit of the scholars, not of the teachers," and are getting the best possible service they can for the money paid.

I have before said that the true policy of any municipal government should be that both of economy and progress. In the main I think you have held to this policy. In taking leave

here to-night I should feel I had not done justice to the local press did I not express my appreciation of its service during the last two years. The reports of our various meetings have been scrupulously accurate, the criticisms fair and open, and to you, gentlemen of the press, I extend my sincere thanks.

During my term of office there has been one man who always responded to any call and who always stood ready to assist me. The work during the past year has been exceptionally arduous, and still in no instance has he ever faltered; and to you, my dear Mr. Brown, I owe much. You have worked in season and out of season for the success of our city government, and to you I pay my humble acknowledgment. And now, Gentlemen of the City Council, while we have often differed in opinion as to what was for the best interests of the city, it was a manly difference and each was conscious of the other's right intentions. Our associations here have been the most pleasant and agreeable and the friendship here formed I trust may continue. I give you my best wishes for your future success and for the success of our city government.

INAUGURAL ADDRESS

OF

Mayor William G. Bradley.

GENTLEMEN OF THE CITY COUNCIL :

According to established custom, we have assembled for the purpose of inauguration and to consider some of the questions that we are to pass upon during the present year.

I am somewhat timid in advising many changes in the several departments at this time, for it is like a man starting in a new business. I shall try and acquaint myself somewhat with the several departments, and I hope to have some recommendations to make in regard to some of them in the near future that I have not touched upon to-day. I feel that the most important duty which I have to perform in this my first official utterance to you, Gentlemen of the City Council, is to impress upon this body that great care must be exercised when making appropriations for the several departments. Our finances are in such a condition that we must be conservative, and each department will be required to economize as much as possible or our taxes will assume such proportions that they will become a burden to many and an injury to our people generally. In fact, I recommend that strict economy be practiced on the part of this city government so far as possible and not actually retard the wheels of progress.

FINANCES.

Outstanding notes,	\$73,735 93
Bills approved not paid,	491 76
Checks drawn not paid,	749 29
Sewer bonds,	123,500 00
	<hr/>
	\$198,476 98

ASSETS.

Due on Collector's list, 1897,	\$18,450 32
Portland & Rochester R. R. stock,	800 00
Cash in Treasurer's hands, exclusive of money belonging to Water Works,	2,422 47
	<hr/>
	21,672 79
Indebtedness, exclusive of Water bonds,	<hr/>
	\$176,804 19

WATER.

In this the city has a paying investment, as the earnings of this department would pay the interest on the entire debt, including the water bonds, and I think the men in charge of this department merit our commendation.

POLICE.

This department I think has been well managed the past year. Those in charge have been courteous to all and have attended to their official duties so well that there has been but little trouble in this direction. The lock-up or station house is in a deplorable condition and should be improved on the inside. The outlay need not be very much, but certainly it needs some looking after. I would not advise a great outlay, for we must of necessity soon have different quarters.

PUBLIC LIBRARY.

In this the city has something to be proud of, for it is something we all have access to, rich and poor, and it also is an important factor in our educational interests, and all of its officers, from its Board of Trustees down to the Librarian and her assistant, are doing efficient work.

SCHOOLS.

Our schools should be brought up to as high a standard as possible, for education is what makes good citizens, morally and socially. We have adopted a new system, and this I think has not had time to develop itself fully. I think there is need of more room and better accommodations. The Main street schoolhouse has nearly two hundred children that attend school there, which makes it much crowded, and it is poorly lighted, there is no ventilation except to open windows, which causes a draft directly upon the children. The sanitary arrangements are very bad, I and would recommend that this matter be looked into at once and acted upon, as the health and educational interests of these children are of vastly more importance to this community than a few thousand dollars.

OUR RECORDS.

We have plans of the location of the roads and streets, water and sewer pipes of this city, that cost a great amount of money, with no protection, which if lost by fire or otherwise would be a great loss and expense to the city. There are also books that should be taken care of. I therefore would recommend the buying of a safe suitable for the purpose of preserving them.

HIGHWAYS.

This is a most important department, for it benefits every inhabitant in our city, and it carries with it the expenditure of a considerable amount of money. The superintendent should be a man who is familiar not only with the method of road

construction, but should also be familiar with the general earth formation of the different sections of our city. There are quite a number of our streets and roads that must be put in a better condition in the early spring. Some of these are in a very bad condition, and as we have about 140 miles of roads and streets, all of which must have some attention this year, with the small appropriation that I feel that we must make in order to keep our tax rate down as low as possible, it will require a careful and judicious expenditure of the funds of this department the coming year. I do not recommend the macadamizing of any of our streets in the city proper at this time, for as you all know it is only a matter of time when we shall have to lay a surface sewer throughout the entire city. Therefore you can see the impropriety of macadamizing any of the streets at this time.

FIRE.

This department seemed to improve somewhat until the Hanson street station was sold; since that time there have not been suitable quarters for taking care of carriage and truck. The dampness and dust are spoiling them both, and I am informed that its members are losing their interest to some extent, and it seems to me that there should be a fire station erected for the hose company, hook and ladder company, and to provide room for a steamer, as when some of our high buildings get on fire you will see the necessity of having one. I think it would be well to provide for a police station in the same building, and as we have \$4,800 from the sale of the Hanson street station and about \$600 left of the last two years' appropriations of this department unexpended, which make a total of \$5,400 towards a new one, and if the old town hall and lock-up were sold and the proceeds from the same put with the \$5,400 we already have, the city would not have to go into debt very much; and if the building was rightly located on the city lot it would be something permanent and that we should all feel proud of, instead of having so many old buildings in the different sections of the city to keep in repair.

CONCLUSION.

I hope to see the business of the city conducted on purely business principles ; and if we shall approach to the performance of that with the intention on the part of each of us to do our very best in every instance where we are called upon to act, and shall adhere to that intention unswerved by fear and uninfluenced by consideration of friendship or personal advantage,—if these precepts are followed, I think this city will eventually reach an economical financial basis.

City Government

AS ORGANIZED JANUARY 5, 1898.

MAYOR, HON. WILLIAM G. BRADLEY.

Councilmen:

WARD ONE.....	{ MARVIN T. BLAISDELL, SIDNEY B. HAYES, JOHN D. FOGG.
WARD TWO.....	{ GEO. W. ROLLINS, JAMES GEDDIS, DAVID M. AMES.
WARD THREE.....	{ STEPHEN C. MEADER, G. FRANK BABB, CHARLES H. SEAVEY.
WARD FOUR.....	{ JAY D. HUSSEY, DANIEL HUSSEY, ISADORE MARCOTT.
WARD FIVE.....	{ CHARLES W. BICKFORD, WILLIAM E. TURNER, CHARLES F. TRASK.
WARD SIX.....	{ STEPHEN B. SCRUTON, FRANK E. WALLACE, ALBERT WALLACE.

City Government.

(Continued.)

CITY CLERK.....	CHARLES W. BROWN

Standing Committees

FOR 1898.

On Finance.—The Mayor, Councilmen Trask and Albert Wallace.

Shade Trees, Parks and Commons.—The Mayor, Councilmen Rollins and Marcott.

Public Instruction.—The Mayor, Councilmen F. E. Wallace and Hayes.

Claims and Accounts.—Councilmen Trask, Scruton and Ames.

Public Buildings.—Councilmen Blaisdell, Jay D. Hussey and Babb.

Roads, Bridges and Drains.—Councilmen Albert Wallace, Scruton and Seavey.

Water Works and Sewerage.—Councilmen Trask, Meader and Hayes.

Fire Department.—Councilmen Bickford, Blaisdell and Jay D. Hussey.

Street Lights.—Councilmen Fogg, Jay D. Hussey and Babb.

Printing.—Councilmen Rollins, Turner and Daniel Hussey.

Adams and Old Cemetery Funds.—Councilmen Ames, Turner and Geddis.

Elections and Returns.—Councilmen Meader, F. E. Wallace and Geddis.

Bills in their Second Reading and Enrolled Ordinances.—Councilmen Scruton, Fogg and Seavey.

Legal Affairs.—The Mayor, Councilmen Hayes and Turner.

Purchasing Committee.—The Mayor, Councilmen Meader and Albert Wallace.

Police.—The Mayor, Councilmen Trask and Meader.

Resolutions of Appropriation

AND AMENDMENTS TO THE GENERAL ORDINANCES PASSED BY THE
CITY COUNCIL IN THE YEAR 1897.

REPORT OF FINANCE COMMITTEE AND RESOLUTION OF APPROPRIATION.

The Finance Committee respectfully report to this Council the following sums to be appropriated for the various departments for the ensuing year, and recommend that the same be voted :

Hydrants,	\$ 3,500 00
Fire Department,	2,500 00
Sidewalks,	3,000 00
Salaries,	3,700 00
Highways,	8,000 00
Macadamizing,	2,000 00
Miscellaneous Expenses,	2,500 00
Police Department,	1,500 00
Sampson Post, G. A. R.,	150 00
East Rochester Free Library,	150 00
Street Lights,	6,000 00
City Poor,	1,200 00
Health Department,	225 00
Public Library and Reading Room,	1,500 00
County Tax,	14,973 15
East Rochester School House,	2,000 00
Bonds, Series 2,	6,500 00

Interest on Sewer Bonds,	\$ 4,800 00
Shade Trees, Parks and Commons,	100 00
State Tax,	9,200 00
School Text Books,	1,000 00
Schools, together with money received from Dog Tax and Literary Fund,	18,000 00
	<hr/>
	\$91,998 15
Less amount from the State,	12,129 00
	<hr/>
	\$79,869 15

Leaving balance to be raised by taxation on property the sum of \$79,869 15, which sum shall be raised by taxation.

SAMUEL D. FELKER, { Finance
CHARLES F. TRASK, { Committee.

RESOLUTION OF APPROPRIATION.

Resolved by the city council of the City of Rochester :

That the sum of \$79,869 15 be raised by taxation to defray the expenses of the several departments for the year 1897.

Passed January 26th.

RESOLUTION APPROPRIATING MONEY FROM THE POLICE DEPARTMENT TO PAYING DIFFERENCE IN EXCHANGE OF CITY HORSES.

Resolved by the city council of the City of Rochester :

That from the surplus money in the city treasury derived from the Police Department the sum of two hundred dollars be set apart for the payment of difference in exchange of city horses with Walker and Miles.

Passed April 6th.

RESOLUTION OF APPROPRIATION TO HIGHWAY DEPARTMENT.

Resolved by the city council of the City of Rochester :

That the sum of four thousand dollars be raised by note or notes of said city for the use of Highway Department, and that said sum constitute a portion of the city debt.

Passed August 10th.

AMENDMENT TO SECTION 6, CHAPTER V, OF THE GENERAL ORDINANCES.

Be it ordained by the city council of the City of Rochester as follows :

That Section 6, Chapter V. of the General Ordinances, be amended by striking out after the words "night watchman" in first line the words "shall hold no other office not named in this chapter."

Adopted February 9th.

AMENDMENT TO CHAPTER XV OF THE GENERAL ORDINANCES.

Be it ordained by the city council of the City of Rochester as follows :

That Chapter XV of the City Ordinances be amended by striking out Section 2 and Section 3 entire, and also strike out that part of Section 4 which occurs after the word "caravan," in the second line, and before the word "without," in the fifth line, so said chapter shall read when amended as follows :

SECTION 1. The Mayor, or in his absence, the City Clerk, shall have power to license all public shows, circuses, caravans

and concerts on such terms and conditions as to him may seem reasonable and just.

SECTION 2. Any person who shall set up, maintain or exhibit any public show, circus or caravan without a license from the Mayor or City Clerk, or contrary to the terms and conditions of such license, shall forfeit a sum not exceeding twenty dollars for each offence.

SECTION 3. All licenses authorized to be granted, either by the laws of the State or the City Council, shall be signed by the Mayor, or, in his absence, by the City Clerk.

Passed October 21st.

AMENDMENT OF CHAPTER XII OF THE GENERAL ORDINANCES.

Be it ordained by the city council of the City of Rochester as follows:

That Chapter XII of the General Ordinances of the City of Rochester be amended as follows:

Section 19 shall be numbered Section 20, and in place of Section 19 the following shall be inserted, to be known as Section 19: No person shall place or dump any stones, dirt or rubbish of any kind in or upon the streets or highways in said city. So that said sections as amended shall read as follows:

SECTION 19. No person shall place or dump any stones, dirt or rubbish of any kind, in or upon any street or highway of said city.

SECTION 20. Any person convicted under the provisions of the preceding sections shall be subject to the penalty prescribed in Section 20, Chapter 264, of the Public Statutes.

Passed December 21st.

Report of City Treasurer.

To His Honor the Mayor and the Honorable Council of the City of Rochester:

GENTLEMEN:—I have the honor to submit herewith the annual statement of the City Treasurer showing receipts and disbursements for the year ending December 31st, 1897.

JOHN L. COPP, Treasurer.

Police Department.

To the Honorable Mayor and City Council:

GENTLEMEN:—I have the honor to submit the following report of the police department for the year ending December 31st, 1897:

The police force consists of the following officers, viz:

Osmon B. Warren, Marshal,
Edgar M. Cate, Assistant Marshal,
Ferdinand Sylvain.

ARRESTS.

Number of arrests,	297
Drunk,	140
Assault,	25
Aggravated assault,	3
Bigamy,	1
Gunning on Lord's day,	1
Bastardy,	1
Fornication,	2
Embezzlement,	1
Suppressing evidence,	1
Attempt to kill,	1
Larceny,	6
Cruelty to horse,	2
Defacing building,	3
Common drunkard,	2
Keeping beer for sale,	30
Keeping for sale,	42
Keeping open on Sunday,	2

Non-support of family,	1
Selling cigarettes to minors,	5
Delivering cigarettes to minors,	6
Disturbing religious meeting,	2
Using obscene words,	1
Assaulting officer,	1
Selling cider,	3
Selling beer,	2
Rude and disorderly,	1
Keeping cider for sale,	1
Breaking and entering,	2

DISPOSED OF AS FOLLOWS :

Paid fines and costs,	104
Appealed and bound over,	19
Married,	1
Discharged,	12
Suspended,	24
Committed to jail,	19
Committed to house of correction,	7
Disclosed,	4
Paid costs, fines remitted,	10
Paid in part,	5
Continued,	1
Placed on file,	10
Allowed time to settle,	19
Ordered to leave city,	1
Discharged without trial,	61
	<hr/>
	297

Amount of fines and costs collected,	\$3,461 17
Paid city treasurer,	3,034 78
Special officers, witness fees and expenses,	331 82
Unexpended balance,	94 57

Amount of property stolen,	\$336 50
“ “ recovered,	310 00
Whole number lodgers,	1,059
Number stores found open and secured,	9
Stray teams returned to owners,	8

In addition to the cases enumerated the police service for the year has included the investigating of many matters that have not been brought before the court, attending to many complaints and the devoting of much time in the effort to preserve order, protect property and enforce law in the punishment of offenders. I am pleased to say that every officer under my command has been prompt and efficient in the discharge of his duty.

Respectfully submitted,

OSMON B. WARREN, City Marshal.

Report of City Solicitor.

To the Mayor and Council of the City of Rochester :

GENTLEMEN : In my last annual report I expressed a hope that an early adjustment might be reached in all the cases then pending against the city. While the greater part have been disposed of enough remain with the new actions to give us unpleasant prominence in our Supreme Court docket. Since the beginning of the year the appeal cases of Sarah A. and Lovey McDuffee and that of the Boston and Maine Railroad have been settled by payment of \$250 in the former and \$75 in the latter, the original award having been \$150 and \$40 respectively. The action of Sarah A. Newell was tried before Judge Pike, resulting in a verdict against the city for \$83 and an order to discontinue the surface sewer in the Hale field, so called. The petition of the Rochester Building and Loan Association for abatement of taxes of 1896 assessed on their surplus not invested in homesteads, was decided in favor of the city.

The action of Vienna Jewell against the city, with reference to drainage and flowage rights taken by the Aqueduct and Water Company, was supposed to have been settled, but owing to some delays cannot be classed among the actions disposed of at this time.

Remaining on the Court docket are the appeal cases of Charles F. Trask & Co. and Susan A. Sanborn, the first presenting legal questions for the law term yet undecided and the second not having been reached during the year. Nine appeals from the amount of damages awarded in widening and straightening the different highways have been taken to the coming

term of court. The names of the plaintiffs in these appeals are as follows :

Charles S. Whitehouse,
 Orrin D. Page,
 John S. Kimball,
 John B. Francis,
 George McDuffee,
 Nathaniel Burnham, two cases,
 Abbie M. Jordan, two cases.

While it is a matter of regret that the city appears so many times as defendant, it is a matter of congratulation that no suit of great magnitude is now pending against it, and in no case is the city a party plaintiff.

Respectfully submitted,

GEORGE E. COCHRANE,
 City Solicitor.

January 1, 1898.

Report of Overseer of Poor.

To the City Council of the City of Rochester, N. H. :

I herewith submit my annual report of all the transactions for the past year :

An effort has been made to procure, as far as possible, all bills against the city in this department, whether contracted previous to or during the year 1897. I believe there are very few bills and of very small amounts outstanding.

Following is a list of those receiving aid and the amount furnished each applicant :

DEPENDENT SOLDIERS' AID.

Samuel McIntire,	\$ 2 75
Albert F. Seavey,	13 50
David Corson,	86 50
John A. Wilkinson,	97 29
Arthur and Horace Buckman,	186 18
	<hr/>
	\$386 22

CITY POOR.

John Otis,	\$ 2 00
Frank Trafton,	22 00
Mrs. Rachel Hayes, for son,	16 00
Frank Fox, for children,	60 00
Miss Sarah Hickey,	19 19
Alex McDonald,	128 25
Patrick Loue,	240 01
Mrs. Mary Nute,	84 00

Amos Tufts,	\$ 40 08
George Otis,	101 00
Stephen P. Colomy,	125 45
Hugh Smith,	10 00
George Smith,	17 50
	<hr/>
	\$865 48

Total amount furnished,	\$1,251 70
-------------------------	------------

Cr.

Appropriation for 1897,	\$1,200 00
Strafford County, refunded,	4 45
	<hr/>
	\$1,204 45

Amount expended in excess of appropriation,	\$47 25
---	---------

There is one outstanding bill, for board and clothing of Thomas Carroll and Edwin Carroll, of \$252. They were sent to Strafford County Farm, Oct. 16, 1896. The above bill includes all charges from Oct. 16, 1896, to Jan. 1, 1898. The reason why no action has been taken in regard to this bill is that the estate of the mother of Thomas and Edwin Carroll has not been settled. But I am informed by their guardian, John F. Quinlan, that, in his opinion, there will be coming to them through him a sum sufficient to liquidate the debt now due.

Respectfully submitted,

JOHN H. NEAL, Overseer of Poor.

Rochester, N. H., Jan. 1, 1898.

Report of Chief Engineer.

To the Honorable Mayor and Council of the City of Rochester:

In behalf of the Board of Engineers I present the following report of the Fire Department for the year ending December 31st, 1897:—I have attended during the year twenty-one fires, fourteen of which were bell alarms and seven still alarms.

The department consists of five engineers; Cocheco Hose Co., No. 1 and Torrent Hose Co., No. 2 have each ten men; Whitehouse Hose Co., No. 3, Harrington Hose Co., No. 4, and Ela Hose Co., No. 5 have each fifteen men. Resolute Hook & Ladder Co., No. 6 has twenty men.

We have purchased during the year four new ladders for Resolute Hook & Ladder Co., No. 6, five hundred feet, 2 1-2 inch, double-jacket, rubber lined hose and one dozen leading hose spanners. Repairs have been made on Torrent hose carriage and on Resolute hook and ladder truck.

I would respectfully recommend that the city build a new brick fire station in a suitable place on the City Lot on Wakefield street, large and commodious enough to contain Hook & Ladder Truck, Chemical Engine and Hose Wagon, also a hose tower sixty feet high and room for five horse stalls. This building should be two stories high with firemen's hall and room for hay and grain in second story. There is no question but that the department needs a fire station building and I suggest that the City Council procure plans and cost of the same. I also recommend that the city sell the three hand engines, as they have not been used since the hydrant system was adopted. I would recommend that the Committee on Fire Department advertise them for sale in the newspapers during the year. I also recommend that the city purchase five hundred feet of 2 1-2 inch rubber lined hose.

The expenses of the fire department for the year will be found in the report of the Committee on Finance.

In behalf of the Board of Engineers allow me to extend our thanks to the members of the Fire Department for the promptness and courteous manner in which you have discharged your duties as firemen. Also to the City Marshal for police service rendered at fires during the year.

JOHN W. THOMPSON, Chief Engineer.

Expenditures of the VARIOUS DEPARTMENTS

FOR THE YEAR ENDING DEC. 31st, 1897.

Adams Fund.

A legacy left in trust to the town of Rochester, by Seth Adams, a native of Rochester, the income of which is to be paid to the poor orphans, widows and maiden ladies of the city of Rochester.

The following persons received the fund in 1897 :

Abby D. Hayes,	Martha D. Hayes,
Lena Rieple,	Eliza Bragdon,
P. C. Sampson,	Annie L. Hill,
Mary Sullivan,	Katie Blake,
Abigail Horne,	Carrie Gile,
Carren Erickson,	Servesta B. Page,
Sarah J. Durgin,	Mrs. Sonson,
Julia Shapleigh,	Amanda Tebbetts,
Lovey Howard,	Ann Quimby,
Emeline Page,	Olive E. Ricker,
Hannah Collins,	Mary H. Foss,
Joanna M. Linscott,	Sarah A. Canney,
Lucinda Plummer,	Bridget Carroll,
Ann Cullen,	Lydia E. Jenness,
Mary E. Nute,	Elizabeth D. Grace,
Grace V. Hussey,	Mahala Horne,
Lucretia W. Foss,	Rebecca Brown,
Mary Davidson,	Emma Mithee,
Mary H. McCrillis,	Sarah J. Jackson,
Mary E. Webber,	Ruth H. Philpot,
Mary A. Perkins,	Martha A. Varney,
Sarah A. Foss,	Mary E. Nutter,
Dorothy Clark,	Susan A. Chamberlain,
Sarah Yeaton,	Elizabeth W. Chase,
Carrie H. Beecher,	Abby Hussey,
Sarah A. Hurd,	Alvira Ross,
Elizabeth A. Hall,	Priscilla M. Foss,
Elizabeth P. Hussey,	Olive A. Dame,
Lizzie R. Hanscam.	

The above received the sum of seven dollars each.

The committee who have the distribution of the fund give it only to the following persons: Those who are needy, and have been residents of Rochester for at least ten years; aged ladies unable to work and who have no money at interest, or near relatives able to care for them, or who do not draw a pension from the United States.

The committee for 1898 are David Ames, William E. Turner and James Geddis.

All who wish to draw the fund next year, whether they have drawn heretofore or not, must make application before the 31st day of December.

ROCHESTER, N. H., DEC. 31, 1897.

I have examined all of the city accounts of the several departments for the years 1896 and 1897 and find them correctly added and properly vouched.

NAHUM YEATON, Auditor.

Report of the Public Library.

To the City Council of the City of Rochester :

So specific, so comprehensive and so concise is the report just at hand from the librarian to the trustees, that our board feels we can in no better way present the record of the past year of the library work than by bringing to your attention that report in its entirety. Miss Parshley writes as follows :

To the Board of Trustees of the Rochester Public Library :

I herewith submit my report for the year 1897 :

As the first days of the new year were occupied in removing the library from its old quarters in Barker's Block to the rooms in the City Building, the ordinary work did not begin until January 6th, when the doors were again open to the public and books given out.

The entire number of accessions for the year is 1,174, comprising all books added, by purchase, binding, or by gifts. Five have been discarded, because of exposure to contagious diseases, making the whole number in the library at the present time 5,769. In making the additions care has been taken to supply such books as were needed, as well as those which would be popular. Many valuable books have been added, both for reference and circulation. Several small stacks have been provided, to relieve the overcrowded condition of the shelves, and the city has kindly allowed the use of the small room at the rear of the library for public documents.

The agencies are still supplied with the required number of volumes—200 at East Rochester and 250 at Gonic. Exchanges

are made monthly, the proportion of the classes preserved, and the necessary reports faithfully made to the librarian. The supply in certain classes cannot possibly meet the demand at either place. As yet very few duplicates have been added. It is, therefore, impossible for a popular book to make the rounds quickly. The only way to remedy this is to strengthen the library, for its growth means the growth of all its departments.

During the year 1,055 books have been issued at East Rochester, 2,055 at Gonic and 21,105 at the main library, the entire circulation being 24,215. The rate of fiction is still comparatively low, being 55 per cent. of the entire circulation. Early in the year the age limit, which had been fixed at twelve years, was removed. Since then any child old enough to read, if properly guaranteed, has been permitted to have a card. This has not only increased the demand for juvenile literature, but has afforded much satisfaction to the children. The non-fiction cards which are to be adopted, will tend to make the library of more real profit to its readers and largely increase the circulation in classes other than fiction.

The entire number of cards given out is 2,873. Of this number 274 are registered at Gonic, 789 at East Rochester and 1,810 at the central library; 526 new cards have been issued during the year.

The reading room is well patronized, especially by the young people. Students come to obtain material for essays or to look up subjects in connection with their school work. Members of the various literary clubs come for help in their studies and many find entertainment in looking over the papers and magazines. The number of visitors in the room for the year is 2,849. As there have been 245 more visitors this year than last, the anxiety expressed by some, that the new room would not be as popular as the old, may be relieved.

Among the gratifying results of the year has been the growing interest of the teachers in the library, their recognition of its possibilities in their school work and its reflex action upon their pupils. The limitations of the library have made it

impossible to do all it might otherwise; but, as it becomes practicable, these privileges should be extended, for much of mutual benefit must be gained by the hearty co-operation of the library and the schools.

It is to be regretted that the large majority of Rochester people know so little what may be found in the library. Many even of its regular readers are content with something the librarian or her assistant may suggest, rather than consult the card catalogue. This cannot arise from its complexity, as the children find, apparently without difficulty, long lists of numbers. A printed catalogue will remedy this to some extent.

The library is becoming an important factor in the educational interests of the city. Its influence reaches farther and, we trust, deeper each year. May the advancement which it has made during 1897 be but the harbinger of greater progress for 1898.

Your librarian wishes to acknowledge her gratitude to her assistant for her faithfulness, also to the trustees for their kindness.

Respectfully submitted,

LILLIAN E. PARSHLEY, Librarian.

Rochester, N. H., Dec. 31st, 1897.

Nothing more remains to be said—as coming directly from the trustees—save to emphasize three or four points in such a way as to sum up the various results accomplished by the several standing committees, acting under the sanction of the full board of trustees.

The committee on purchase of books take pride in the character of the volumes selected, which represent the expenditure not alone of money but also of considerable time and thought, together with the careful study of the particular and prevailing needs of the community at the present moment. In addition to the inevitable but discriminating outlay for fiction, the department of history, especially of American history, and the kindred branch of biography have been much strengthened. Regard has been had to the sciences, both physical and mental, to the industrial and fine arts. Large accessions in the way of books of travel are intended to gratify the constant and laudable demand in that direction. Juvenile readers have been anxiously and, so far as the limits of our resources would permit, generously provided for. Above all, the needs of students have been kept in mind. Hence the reference library has been enriched to the fullest extent of the possibilities.

Concerning the last it would be well if some way could be found to suggest to the seriously disposed just where their opportunities await them. Many treasures are practically buried on the reference-shelves, within manual reach of whosoever will, merely because the public at large have yet to discover their value. Instance, for example, the attractive row of red-covered Baedeker guide-books, replete with geographical, historical, social, religious, economic, artistic, miscellaneous information pertaining to the countries of the earth. There they stand; how few realize the merit of their contents.

Certain lines of reference are opened up by the schools and literary clubs of the city, of whose courses the library book-committee endeavors to take cognizance; but here, again, one valuable source of collateral study is too often overlooked, that, namely, of the bound magazines made helpful by Poole's Index.

More than two hundred and sixty additional bound volumes of magazines have been made available during the year just completed, first by the purchase of a set of the able and authoritative "Quarterly Review," and second by the binding of a large number of loose copies of the standard periodicals which had accumulated by gift, purchase or subscription. The committee on rebinding are to be credited with thus turning to account this supply of pamphlets which otherwise had been of little use.

To provide for the acquisitions of books and magazines, the committee on room and furnishings have added substantial and inexpensive shelves of style and material harmonious with previous furnishings; and, in this connection, special thanks are due to Mr. Meader of that committee for his gift of a convenient and well-made book-truck such as was much needed.

The committee on library system have wisely suggested and the board has adopted certain rules relative to non-fiction and teachers' cards which are designed to increase the usefulness of the library and enlarge its salutary influence. These rules tend to the greater availability of the weightier resources of the library, without encroachment upon the circulation of lighter classes of reading.

The retrospect of the year is, on the whole, satisfactory, when the limitations of the funds at command are taken into account. It would not be easy to feed the people of Rochester on fifteen hundred dollars a year; it would not be easy to provide good streets and sidewalks at the same price, yet we strive

with only that sum to furnish mental sustenance and to smooth to the feet the path of knowledge.

A very wise man, once said, "First I buy books, then, if I have any money, I buy clothes and food."

All of which is respectfully submitted :

SAMUEL D. FELKER, <i>ex-officio</i>	}	<i>Trustees.</i>

REPORT
OF THE
SCHOOL BOARD
OF THE
CITY OF ROCHESTER,
New Hampshire,
FOR THE
YEAR ENDING DECEMBER 31, 1897.

ROCHESTER, N. H., Feb. 7, 1898.

To the City Council of the City of Rochester :

The following report of the Superintendent of Schools, with statistics for the year ending August 1st, 1897, and financial statement for the year ending Dec. 31st, 1897, is submitted as the report of the School Board.

H. L. CATE, Secretary.

School Board, City of Rochester, 1897.

HON. SAMUEL D. FELKER..... President.
 FRANK E. HUSSEY..... Secretary.

DR. FORREST L. KEAY,	FRED W. CROCKER,

Rules and Regulations,	“	Waldron, Jenkins.
Superintendent of Schools,		WM. N. CRAGIN.

Report of the Superintendent of Schools.

To the School Board:

Herewith is submitted my first annual report as Superintendent of Schools.

As scarcely four months have elapsed since I assumed charge of these schools, a detailed report upon their work can not very well be presented at this time; for schools are like individuals and it takes time to discover all their good and bad qualities. No important changes have been made in the instruction or management of the schools during the past year, and no revolutionary change is to be anticipated in the future. The course of study of every school system needs frequent revision, for education has been, and is still, making rapid progress, and the course needs to keep pace with it. Whatever educational progress has brought to light, that is good, helpful and inspiring, we should make a part of our own school system without delay. It should be our aim to make the school system of Rochester the very best that the means at our disposal and our knowledge of educational matters will allow. At present it lacks some very essential things, without which it can not be classed as equal to the school systems of the most progressive communities; but these essentials will in due time be added to our course, and then with skilful teaching the children of this community will have as good educational advantages as are to be found elsewhere. Whatever changes it is necessary to make will be made with due care, so that there may be a gradual growth toward better things rather than a sudden leap toward perfection.

Among the various needs of the schools, the most pressing

seem to me to be these: 1. Better school accommodations. When the new building at Gonic is completed that village and East Rochester will both be provided with modern, comfortable school buildings of sufficient size to accommodate all children who wish to attend school. In the center, the condition is not so good. There are neither school rooms enough, nor are those which we have good enough to properly accommodate the children of this locality. The Main street building is not a suitable place to send children to. The objections to it are as well known to the community as to me, and are certainly numerous and weighty enough to condemn its farther use as a school building. To accommodate the children who should be in school, it seems probable that an eight-room grammar building would be required; or, the present high school building might be given up to the lower schools and a new high school building erected. But whatever is decided upon, it is to be hoped that action will be taken at once, so that no more classes need be sent to the Main street building.

The high school will certainly need more room the coming year. Heretofore it has done very acceptable college preparatory work, and if it is to continue to hold its place as a good fitting school, it must be provided with a physical laboratory without delay. The college requirements have recently been increased along this line, and the high schools which fit for college must meet the new requirements.

2. Better school equipment. Every school should be supplied with a reasonable amount of illustrative apparatus; it should have its own library of carefully selected books. Pupils should not be required to use filthy books and slates; when books are worn out or badly soiled, new ones should promptly replace them. If the city, under the state law, is required to furnish the pupils with text books and school supplies, it seems to me that it should be done with sufficient liberality, so that when a book becomes too filthy for a clean child to use, it may be replaced by a new one. The fact that the average cost per pupil for text books and supplies last year was only seventy-

two cents, does not speak well for the work of the schools. The cost ought to have been a good deal more. When the cost per capita on the total enrollment gets down as low as one dollar, it is pretty certain indication that the pupils are using filthy, worn-out books or that modern work, that requires material, is not being done in the schools. I believe that economy should be practiced in providing books and supplies; but that all supplies that can be profitably used, should be provided; and that children should not be required to use books that no man or woman would touch except with a pair of tongs.

3. Better teaching. There is always need for better teaching. When it is remembered that our best teachers are constantly improving their work, striving each year to make their work more scientifically correct, it is evident that in course of time the difference between the work of such a teacher and that of one who has been standing still will become very marked. The teacher who is not progressive, who does not feel the need of doing better work every day, who is not a student, and an earnest one, can never do acceptably the kind of work that the modern school demands.

The difference between good teaching and poor teaching is not always understood as clearly as it ought to be. Most people are reasonably careful to select a skillful trainer for their young colt. They believe that skill will count in that case, but they are strangely skeptical as to its utility when the child is concerned. The traditional notion that anyone can teach little children, although it has many times been proved false, still exists; and people will trust their children without a murmur to unskilled training, when they wouldn't think of doing such a foolish thing with a horse.

Better teaching is not a need which is peculiar to Rochester, but it is needed everywhere. There is a general feeling that we are wasting time and killing the pupils' interest by poor teaching; that very much more ought to be accomplished in the nine years of school life than we do succeed in doing. At any rate, all are agreed that the quality of public school instruction

should be kept as high as possible, and that only growing teachers should be employed. It makes little difference whether the teacher is a normal graduate or not, if she is satisfied with her work and does not feel the need of constant study and improvement she is not a profitable teacher to employ.

Although the record of tardiness was not kept in all of the schools, yet it is evident that there was considerable of it last year, particularly in the higher grades. While it may be necessary at times for a pupil to be late, yet punctuality, as a business virtue, is highly esteemed; and I regard it as one of the many things that the public school should teach.

Cases of truancy seem to be few, yet it seems to me that there must be a considerable number of pupils of school age who are not in school, and I would suggest that an officer be employed to inquire into the matter of their attendance. The fact that we have limited school accommodations does not excuse us from enforcing the school attendance law.

The usual statistical tables are appended which give some items of interest in regard to the schools.

In conclusion, though my report is a brief and somewhat unsatisfactory one, yet I hope that my purpose is clear,—to make these schools do more for the pupils, teachers and the community than they are now doing. Of course the schools exist wholly for the pupils, but I expect them to educate the teachers and community in this way—we must have a skilled corps of teachers, and if we haven't it now we must make it; out of our present corps, if possible; if not, out of new material. With more interesting school exercises parents should acquire the habit of visiting schools often and should learn to distinguish between good teaching and poor teaching. It is a real inspiration to teachers when parents visit the schools frequently and make it manifest that they know and appreciate good teaching and will insist upon having it. The schools of any community will always be just as good as public sentiment demands; no better, no worse.

It makes no essential difference who the members of the

School Board may be, who is the Superintendent of Schools, or who the teachers are, or what educational views any or all of them hold, it is the general sentiment of the community that ultimately determines what the school system shall be; and it is my hope that the sentiment of this community may crystalize into a demand for a public school system which shall be modern and progressive; which shall concern itself with the manual and moral, as well as with the mental, training; which shall include the kindergarten, and which shall be practical and suited to the needs of this community, dignifying the labor of the hands, while not ignoring the aesthetic faculties. In short, a system which shall train every faculty of the child, and make his development harmonious and complete.

Respectfully submitted,

W. N. CRAGIN, Supt. of Schools.

Rochester, N. H., Jan. 1, 1898.

Class Ode.

Words by CATHIE E. SHOREY.

Music by J. E. McDUFFEE.

Dear classmates, tonight we part,
Our four years of study are o'er,
We look wistful to that height,
To which it is for us to soar.

Nor would we forget the hands
Whose unceasing guidance has taught
Not books alone, but virtue,
That downfall may not be our lot.

But when we've led out our life,
And we feel Death's arm enfold us
Round about in gentle rest,
May we fall asleep in Jesus.

MEMBERS OF THE CLASS.

Rules and Regulations for the Schools of the City of Rochester.

CHAPTER I.

RULES OF THE SCHOOL BOARD.

SECTION 1. *Organization.*—On the Thursday evening next after the second Wednesday of January, the school board shall meet annually at seven and one-half o'clock for organization.

SEC. 2. *Officers.*—The officers of the board shall be a president and secretary. The mayor is *ex-officio* president of the board; and a secretary shall be elected annually by ballot and major vote.

SEC. 3. *Meetings.*—Regular meetings of the board shall be held on the second Thursday evening of each month at seven and one-half o'clock. Special meetings of the board shall be called by the president whenever he may deem it necessary, or at the request of two or more members; or in the absence or disability of the president, by the secretary in like manner.

SEC. 4. *Quorum.*—A majority of the members shall constitute a quorum.

SEC. 5. *Rules.*—Meetings shall be conducted, except when special provision is made, in accordance with Cushing's Manual.

SEC. 6. *The duties of the President* shall be to call special meetings of the board, to call the members to order at the appointed time, and preside at all meetings. In his absence a president pro tem. shall be elected.

SEC. 7. *The duties of the Secretary* shall be to keep a fair record of the doings of the board, in a book suitable for that purpose, in which he shall enter all the proceedings in full, including all important reports of committees, and also the names of the members present at each meeting. He shall notify all school officers of their election or appointment, and shall see that school officers are supplied with copies of the last revision of the rules and regulations and promptly notify them of any change made in them. He shall conduct all necessary correspondence of the board and perform all other duties that appropriately belong to the office of secretary.

SEC. 8. *The Board shall*, annually in the month of June, elect by ballot and major vote a Superintendent of Schools, who shall seasonably furnish to the officers of the state all the returns required by statute to be made to them. He shall supervise the schools, examine applicants for positions as teachers, and report their qualifications to the board; visit the schools systematically, and direct the methods and details of instruction, pointing out defects and suggesting remedies. He shall procure, and keep each school supplied with the authorized text books and supplies; shall secure, as far as possible, harmony and uniformity of work in all departments of the same grade, and keep a scheme of the order of exercises in all the schools. In conformity to Chapter 4 of these Rules and Regulations, he shall examine pupils and assign them to the proper grades, and direct the promotions to be made; and may degrade any who in his opinion are in a grade more advanced than their qualifications should allow, subject, however, to the approval of the board. He shall supply a suitable substitute in the absence of any regular teacher for a period of less than four weeks. He shall keep himself informed in regard to all improvements and suggestions made upon the subject of school instruction, and recommend the adoption of such as he deems practical and expedient. Subject to the approval of the board, he shall prescribe the boundaries of the different schools and see that they are observed; direct and assist the truant officer

in his duties, and try to improve the school attendance; and shall cause these rules and regulations to be strictly observed, and report to the board all violation or neglect of them. He shall also each term collect and pay over to the city treasurer the tuitions of pupils residing beyond the limits of the city, and shall make up the monthly pay roll of teachers and janitors.

SEC. 9. *A Committee on School Finance*, consisting of three members, shall be chosen annually, who shall meet at least once in each month, and carefully examine and audit all accounts and claims contracted or authorized by the school board, itemized and approved as provided in the following section, and, if found correct and justly due, shall allow and pass the same to the city clerk. For the consideration of the city council they shall annually make, and seasonably report to the board, a careful estimate of the expenses of the schools for the ensuing year.

SEC. 10. *No Account or Claim* shall be received or acted upon by said committee unless each item thereof shall be specifically set forth, and unless the accuracy and justness of the same shall be approved thereon by the officer or agent authorized to make the contract or cause the expenditure to be made.

SEC. 11. *Special Duties of Members*.—Members of the board may be charged with the performance of other special duties as occasion may require.

SEC. 12. *Election of School Officers*.—Teachers of all schools, and also the janitors of the school buildings at Gonic, East Rochester, and Rochester Village, and all other school officers, shall be elected annually in June, by ballot, and by a major vote of the board. But whenever for any reason there may be a delay in filling any position, or whenever a vacancy shall occur after the annual election, it may be filled at any time in the same manner. But no person shall be eligible to fill any permanent vacancy in the corps of teachers, or be transferred, unless such person shall be a graduate of some recognized training school, normal school or college, and if a female,

unmarried, except by a vote of ten members of the school board. Marriage, of itself, shall be considered a resignation, but if it occurs during a term, the teacher may continue to teach to the end of said term. (This shall not apply to any of the present corps of teachers.) No person shall be employed as a regular teacher without having passed a satisfactory examination upon the branches taught in the schools, methods of teaching and school management, except that the diploma of a reputable normal school or college may be accepted in place of such examination; and holders of state teachers' certificates shall also be exempt from it.

SEC. 13. *On Probation.*—Any officer named in the last section not holding at the time of his election a position of the same grade as that to which he is elected, shall be on probation, his services to expire at the close of any term of school, in case his election is not confirmed for the balance of the official period by a vote of the board.

SEC. 14. *Tenure of Office.*—All teachers shall hold their positions until the next annual election, and the janitors named for one year ending the first day of August after the next annual election, except as provided in the last section, unless in the meantime they are removed by the board. Teachers will not be allowed to resign without giving at least one month's notice, except for causes satisfactory to the board.

SEC. 15. Other janitors may be appointed by the board, or by any authorized member at any time, and for such periods as may be deemed expedient.

SEC. 16. *The Annual Salaries* of school officers shall be determined at the time of their election, and shall not be subject to a change at time of confirmation, and no salary shall at any time be changed during the period for which they were elected, except by a two-thirds vote of the board.

CHAPTER II.

DUTIES OF TEACHERS AND DISCIPLINE OF SCHOOLS.

SECTION 1. *General Duties.*—Teachers shall make teaching their only regular business, and during term time shall not instruct the pupils in other than the branches prescribed, nor give instruction to private pupils without the consent of the superintendent first obtained. In graded schools they shall follow the prescribed course of study. They shall prepare themselves to instruct their several classes faithfully, impartially and effectively, according to the regulations prescribed by the board and the provisions of the laws of the state; and in all subjects and methods, in which it is possible, shall teach the reason with the subject or method, and make every effort to develop the reasoning faculties of their pupils. They shall strive earnestly to promote diligence, courtesy and obedience, and to inspire their pupils with an enthusiasm for study.

SEC. 2. *The Principals of School Buildings* shall have the management and control, not only of the pupils of their own grades and rooms, but of all others in or about their buildings or premises, when not in the rooms with their respective teachers. They shall also, when their assistance is needed, attend to cases of discipline in any part of their respective buildings. Other teachers will cheerfully co-operate with their principals in the execution of their plans and wishes.

SEC. 3. *Opening of Schools.*—The schools shall be opened punctually at the appointed time, and the morning exercises shall begin with the reading of a selection of the Scripture. It is recommended that this reading be followed by some devotional exercise.

SEC. 4. *Order of Exercises.*—Every teacher shall prepare and keep an order of exercises in the school room, where it may be seen by the pupils and visitors.

SEC. 5. *Physical Exercises.*—There shall be short calisthenic exercises as often as once each session in all except the

high school, and teachers, especially those of the lower grades, shall endeavor to relieve their pupils by a variety of exercises, change of position and the like, as far as can be done without interfering with the school work.

SEC. 6. *Discipline.*—Teachers shall aim by precept and example, to improve the manners and morals of their pupils. They shall exercise the same authority over them during recesses and on the premises as in the school room; shall avoid corporal punishment in all cases where good order can be preserved by milder means, and when inflicted they are to preserve their self-control and refrain from exhibiting anger or impatience.

SEC. 7. *Suspension and Expulsion.*—The principal in the high school building, or a teacher in any building or room, may suspend from school a pupil of any grade for violent or obstinate resistance to authority or gross mis-conduct, but he shall immediately report the case to the superintendent and to the parents or guardians of the scholar. When the conduct, example or general influence of a pupil becomes very injurious, and his reformation appears hopeless, or he manifests a determined disregard of the rules and good order of the school, he may be expelled by the board. Any pupil suspended, on giving evidence of amendment, may be restored by the superintendent, otherwise the case shall be reported to the board for its action. Any pupil expelled may be readmitted on probation, and on ample proof of reformation may be restored by vote of the board.

SEC. 8. *Pupils Leaving Under Censure.*—Teachers shall give immediate notice to the superintendent whenever a pupil shall leave under censure, and such pupil shall not be permitted to attend any public school in the city except by his order.

SEC. 9. *Care of School Rooms and Premises.*—Teachers shall be in their respective school rooms at least fifteen minutes before the opening of each session to admit pupils, suppress boisterous or disorderly conduct, and see that no school build-

ing, room or property is damaged or defaced; that the school rooms are clean, and that entries, yards and outbuildings are kept in good condition, and in executing the last requirement they may command the services of the janitors. They shall also see that the windows of their respective rooms and entries are fastened, and the doors locked at the close of the exercises of each session of school. During the intermission as few pupils as possible shall be allowed to remain in school buildings; and in the high school building these shall occupy only such rooms as the principal shall assign them. Teachers shall make such rules as are necessary and reasonable for good order and neatness on the school premises.

SEC. 10. Teachers shall keep the doors leading to the basements of the school houses on Maple street, School street, and at Meaderboro, locked, and allow no pupil, excepting such as may be acting as janitors, to enter these basements unless by special permission.

SEC. 11. *Liability for Damages.*—Teachers shall be held responsible for the school property entrusted to their care, but all injury done to it by any pupil shall be paid for by the parent or guardian.

SEC. 12 *Profanity, Indecent Writing and Wilful Damage.* Any pupil who shall, on or near the school premises, use or write any profane or indecent language, draw or exhibit any obscene picture or representation, or shall wilfully damage or deface any school property, shall be liable to expulsion and prosecution.

SEC. 13. *The Use of Tobacco* in any form and games of chance, on or near the school premises, are strictly prohibited.

SEC. 14. *Ventilation and Temperature.*—Teachers shall be extremely careful that their rooms are properly ventilated, that the temperature is kept as near as possible to 68 degrees Fahrenheit, and that children are not allowed to sit in a draft of air.

SEC. 15. *School Registers.*—Teachers shall fill up and return their school registers in strict conformity to the directions contained in them, except when otherwise directed, and shall also keep for their use and for that of the superintendent an accurate list, giving the full name, age and grade of each pupil, and the name of the street upon which he resides.

CHAPTER III.

THE SCHOOL YEAR, SCHOOL HOURS, HOLIDAYS AND VACATIONS.

SECTION 1. *The School Year* shall begin the Monday nearest the first day of September, and shall consist of thirty-six weeks, and be divided into three terms. The fall term shall commence at the beginning of the school year, and continue until the close of the sixteenth week thereafter, omitting, however, the week in which the Rochester Agricultural and Mechanical Fair is held, and also the Friday next following Thanksgiving day; the winter term on the Monday following a vacation of two weeks, and continue nine weeks; and the spring term on the Monday following a vacation of two weeks, and continue twelve weeks.

SEC. 2. *Holidays.*—Every Saturday, Fast day, Thanksgiving day, Decoration day, and the twenty-second day of February shall be allowed as holidays, and also Arbor day, if observed in the manner intended by statute. Teachers may close their schools one day each term to visit other schools, provided the selection of the day and of the schools to be visited shall be approved by the superintendent. Other holidays will be granted only by vote or consent of a majority of the board.

SEC. 3. *School Sessions.*—There shall be two daily sessions of all the schools. The forenoon session shall begin at 8.45 o'clock and continue three hours; the afternoon session for all schools in Rochester Village, East Rochester and Gonic shall commence at 1.30 o'clock and continue two hours; other schools at 1 o'clock and continue two and one-half hours.

SEC. 4. *Recesses*.—Every school shall have a recess of fifteen minutes during the morning and ten minutes during the afternoon session, with the exception of the schools in the high school building and other schools of similar grade, where there shall be no recess in the afternoon. In no case shall a pupil be wholly deprived of a recess as a punishment.

CHAPTER IV.

ADMISSION, PROMOTION, EXAMINATION AND ATTENDANCE.

SECTION 1. *Infectious Diseases*.—No pupil or teacher shall be allowed to attend school from any house in which small pox, varioloid, scarlet fever, measles or diphtheria prevail; and any teacher or pupil who has been affected with any of the above mentioned diseases, or has been in any way exposed to them shall not in any instance be admitted to the school room except by written certificate of immunity procured from the Board of Health. If any teacher has reason to believe that a pupil has any of these diseases he shall send the latter to his parent or guardian with a note to that effect and at once notify the superintendent of such action.

SEC. 2. *Pupils Residing Beyond the Limits of the City* may be permitted to attend its schools, except in cases where such attendance would crowd any school beyond its accommodations. When so permitted they shall pay tuition at or before the middle of each term as follows: In the high school fifty cents per week; in the five higher grades of other schools, thirty-three and one-third cents per week, and in all other grades twenty-five cents per week.

SEC. 3. *Boundaries*.—Teachers shall receive or retain in their schools only those pupils whose residences are within the prescribed boundaries of their respective schools, except by consent of the superintendent. Parents or guardians may, in case of their removal from the prescribed boundaries of any one school to those of another, continue their children in the

school they are attending till the end of the term. No pupil, however, shall be received from one school into another without the approval of the superintendent, or without a certificate of transfer from the teacher whose school he leaves, stating the name, age, grade, standing and reason for the transfer, and the teacher receiving such pupil shall immediately acknowledge the receipt of the certificate.

SEC. 4. *Admission.*—Children, if residing within the boundaries of the school, and qualified to enter some one of the classes, shall be admitted to the lowest grade of school at any time without a certificate, except such as may be required by the provisions of the last section, but if unable to read they shall be admitted only during the first four weeks of the fall term and during the first three weeks of the spring term. A pupil may be admitted to other grades by promotion as provided in the following sections, 9 and 10, or, if he has not been a member of a lower grade during the preceding term, then, after due examination, by a certificate stating the grade which the pupil is qualified to enter, signed by the superintendent of schools. No child under five years of age shall be admitted to any school.

SEC. 5. *Written Examinations* shall be given in such classes and at such times as the superintendent of schools may direct.

SEC. 6. *Teachers of the High and Grammar Schools* shall at the close of each week record the standing of the pupils in their respective classes as regards recitations and deportment, making use in such record, of the terms satisfactory and unsatisfactory.

SEC. 7. *Only those Pupils* whose work would not entitle them to promotion shall be classed as unsatisfactory.

SEC. 8. *Reports of the Standing* and attendance of all pupils of the high and grammar schools shall be sent to the parents at the middle and close of each term.

SEC. 9. *Promotions Shall be Made* annually at the close of the spring term; but individual pupils may be promoted at any time during the year, when, in the opinion of the teacher and superintendent, such promotion would be for the interest of the pupil.

SEC. 10. *All Promotions* shall be made by the superintendent of schools.

Teachers shall seasonably furnish him with lists of their respective pupils, together with a statement of the work that each has done. If the work is satisfactory, the pupil shall receive a certificate of promotion; if unsatisfactory in one subject, the pupil may still, at the discretion of the superintendent be promoted conditionally; if unsatisfactory in more than one subject, the certificate of promotion shall not be granted. Provided, however, that no pupil shall be retained more than two years in the same grade.

If a pupil fails of promotion, the teacher shall at once notify the parent or guardian, stating the subjects in which the pupil is deficient, and if the parent shall so request the pupil shall be given an examination upon the subjects in which he is deficient, and if he passes it satisfactorily he shall be promoted.

SEC. 11. *Excused, Absence.*—Legitimate causes for absence from school are sickness, domestic affliction, danger of serious or imprudent exposure of health, necessary absence from town and no others. Absence from such causes shall not affect the standing of any pupil, provided a written excuse or personal explanation from his parent or guardian is seasonably furnished, and the pupil passes within a reasonable time a satisfactory examination in the studies pursued during his absence.

SEC. 12. *Unexcused Absence, Tardiness, Leaving School Before Close of Term.*—Tardiness shall be considered equivalent to one-fourth of a day's absence; and any pupil in any but the three lowest grades of school whose absence and tardiness shall amount to seven days in any term, or who shall have left school before the close of a term, shall cease to be a member

of the school, and shall be re-admitted only by the written consent of the superintendent, on condition of making up within a reasonable time the lessons lost. Pupils who are absent one-fourth of the time in any term may be put into the next lower grade.

SEC. 13. *Leaving School During a Session.*—No pupil, except in the two lowest grades of school, shall be allowed to leave the school during a session or before the dismissal of the school, unless on account of sickness or some pressing emergency of which the teacher is to judge, and a written or personal request from the parent or guardian shall be required when the necessity is not evident.

SEC. 14. *Truancy.* Teachers shall report the names and residences of all truants and those suspected of truancy, together with the names of their parents or guardians, to the truant officer as early as practicable. They shall keep a record of the names of all truants, which shall be open at all times to the inspection of the members of the board and of the truant officer.

CHAPTER V.

TEXT BOOKS AND STUDIES.

SECTION 1. *Courses of Study.*—The high school has three courses of study, each covering a period of four years, and denominated English (with French), Latin-Scientific and Classical, as at present arranged, subject to such modifications as the board shall direct. The course for the other schools shall be divided into nine grades, each grade including an average year's work, and designated by Roman numerals from I to IX, beginning with the lowest, the number corresponding with the year in the school.

SEC. 2. *Selecting Courses.*—Pupils will be expected to decide when they enter the high school which of the courses

they will pursue, and will not be permitted to change after the commencement of the second year, except by vote of the board.

SEC. 3. *Graduation*.—Scholars who have satisfactorily completed any of the high school courses will be allowed to graduate, and be awarded suitable diplomas.

SEC. 4. *Change of Text Books and Studies*.—No change shall be made in the high school courses of study or in the text books used in the schools, and no new text books introduced, except by a major vote of the board at a regular meeting, notice thereof having been given at a previous meeting.

SEC. 5. *Care of Books*.—School books and supplies furnished by the city shall be charged to and in care of the teachers, and at the end of each term they shall take an accurate account of them, and make a report thereof to the superintendent. They shall loan them to their pupils, and see that they are carefully used, and not marked, defaced or injured. Pupils shall be required to replace or pay for such as they lose or injure. All reading books, pens, pen-holders, and also such slates, pencils and other books as pupils do not ordinarily need to take home for study, shall remain in the school rooms, and pupils shall there have them in their possession only while they absolutely need to use them, and after each instance of such use they shall be returned to the possession of the teacher. Such books and supplies as pupils are allowed to take from the school rooms shall be charged to them (the books being first numbered) by the teachers loaning them in record books provided for the purpose, in which shall also be noted the time and their condition when loaned; and at the close of each term, or on leaving school, pupils shall be required to return all such books to the teachers.

SEC. 6. *In Books Belonging to the City* shall be written or printed the phrase, "The Property of the City of Rochester, N. H.," together with the rules to be observed in their care and use.

SEC. 7. *Books for Reference* only shall also be numbered, and when in the possession of pupils shall be charged to them. Pupils shall be encouraged and directed to use, but not permitted to take them from the school buildings, except by special permission of the teachers, and then not allowed to retain them longer than the beginning of the next school session.

SEC. 8. *Text Books and Supplies Needed.*—Whenever a school is not sufficiently furnished with text books and supplies the teacher shall report the fact to the superintendent in writing, specifying the books and supplies needed.

CHAPTER VI.

VOCAL MUSIC AND DRAWING.

SECTION 1. Vocal music and drawing shall be taken as regular studies in such schools as shall be designated by the school board.

SEC. 2. Before the second Monday in each term the supervisors of music and drawing shall submit to the superintendent of schools a schedule of the music and drawing periods' in the several rooms.

SEC. 3. The special teachers of music and drawing shall, while in each of the several rooms, have complete charge of the same, and every teacher is expected to aid and assist in any way that may be required.

SEC. 4. They shall call special meetings of the teachers for the purpose of instruction.

SEC. 5. No pupil will be excused from the study of vocal music or drawing unless permission is obtained from the special teacher and the superintendent of schools.

SEC. 6. Each teacher shall record in the school register each visit of the supervisors of music and drawing, and she shall make to the superintendent of schools a written report of visits made by them each term.

CHAPTER VII.

DUTIES OF JANITORS.

SECTION 1. *Janitors* of all schools are to have charge of all rooms in the school building, and of all school yards and outbuildings and shall keep them in good condition.

SEC. 2. They shall keep all necessary paths in the yard free from snow and ice, sprinkle the steps and walks with sand when slippery, examine all outbuildings daily, and keep them in perfectly good order, promptly report all nuisances or defacements committed in them to the teachers, with the names of those they may detect in, or suspect of, committing the same, and shall unlock them in the morning and lock them at night, before and after each school day. They shall sweep every school room as often as every alternate school day, and the halls and passageways as often, at least, and oftener, if necessary, to keep them in a neat condition, and shall dust all furniture each morning before the opening of the school session. They shall have each school room properly warmed at least thirty minutes before each school session, and shall seasonably notify the member of the school board charged with the duty of furnishing fuel, when any material for making or kindling fires, or other supplies necessary to the performance of their duty are wanted. They shall wind and regulate the clocks, and when not present themselves they shall, at all times, except during the session of the school or presence of the teachers, keep the windows fastened and the doors locked, and allow no one to enter any school building in the absence of the teachers.

SEC. 3. *The Janitors of the High, East Rochester and Gonic School Buildings* shall perform such of the duties prescribed in the two previous sections as are not inapplicable to their respective school buildings and premises. During each term of school they shall devote their whole time to their duties as janitors, except that they may also perform the duties of truant officer if appointed to that office. They shall keep their

school buildings properly supplied with water, and shut it off at the beginning of each vacation, and shall give their personal attention to the heating apparatus while in use and keep it at all times in good condition. They shall thoroughly cleanse all rooms, halls, passageways, and all windows, as often as twice each year; shall keep their school premises in a neat and orderly condition, and during vacations shall have the care and oversight of them and see that no damage is done.

SEC. 4. They shall be present during recesses, and half an hour before the beginning, and twenty minutes after the close, of each school session, and allow no pupil to enter their school buildings in the absence of their teachers except by permission of the principal. They shall co-operate with the teachers in the maintenance of good order about the premises, and assist in the supervision of pupils during recesses, and while forming to march in and out of the buildings. If pupils are allowed to remain in any of their buildings during intermissions the janitor shall also remain and have charge of all such pupils, restrict them to the rooms assigned them by the principal, suppress all boisterous or disorderly conduct, see that they do not damage or deface the building, or otherwise violate the school regulations.

SEC. 5. *Repairs.*—They shall make such repairs as they conveniently can, such as setting glass and the like. All other needed repairs, all damages and nuisances, they shall report to the school board.

CHAPTER VIII.

ENFORCEMENT AND AMENDMENTS.

SECTION 1. It shall be the duty of all the school officers to acquaint themselves and the scholars thoroughly with the school regulations, and within their respective jurisdictions to enforce them.

SEC. 2. These rules and regulations, or any part of them, may be repealed, amended, or additions made thereto by a major vote of the board, notice thereof having been given at a previous meeting.
